

## The Ultimate Fiber Prebiotic

Kibow Fortis® is a highly effective prebiotic dietary supplement made with 7-Functional Fibers. This blend of prebiotics are known for their cholesterol reducing properties, promotion of satiety or feeling of fullness and a boost in the immune systems. Kibow Fortis® consists of soluble and insoluble fibers providing unique general wellness benefits. This fiber formulation provides an optimum environment for a healthy balance of good bacteria in the intestinal flora matrix.

## Multi-Fiber vs Mono-Fiber

Most store-bought fiber products are mono-fibers. However, Kibow Fortis® is a multi-fiber prebiotic supplement made with Functional Fibers. Functional Fibers help create Short Chain Fatty Acids (SCFAs) in the colon. SCFAs have cholesterol reducing properties.

## Healthy Gut, Healthy You®

Gut health is becoming increasingly important. Your gut is considered to be your second brain, so it's important to start taking care of your gut today. If the gut balance can be restored through repopulating the good bacteria, the gut can become healthy again.

## Health Benefits

-  **Intestinal Flora Maintenance\***
-  **Weight Management\***
-  **Boost and Balance Immunity\***
-  **Lipid Reduction\***
-  **Improve Digestive Health\***
-  **Satiety\***

Soluble Fiber } Insoluble Fiber }	4.0gm	13% Based on 30 gm/day

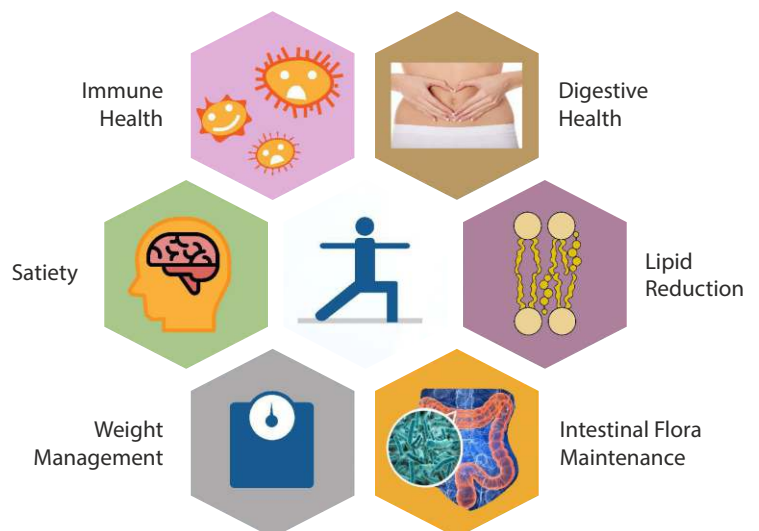

A proprietary blend of prebiotics consisting of (1,3/1,6) Beta-glucan, (1,3/1,4) Beta-glucan, Inulin, Xylooligosaccharide, Arabinogalactan, Natural and artificial flavors.

Contains no wheat, sugar, starch, or salt.

\* Daily Values (DV) not established

## Improve Overall Wellness

Wellness begins with good health, which, in turn means having a healthy gut microbiome. 80-85 % of the immune system resides in the gut, so a healthy gut equals a healthy you. If the gut balance can be restored through repopulating the good bacteria, the gut can become healthy again.

## Ingredients Breakdown

**Inulin** - Is fermented in the colon until it becomes butyrate, a short-chain fatty acid that helps reduce the risk of colon cancer

**Beta (1-3/1-6) Glucans** - Derived from medicinal mushrooms and yeast for their ability to enhance immunity and reduce carcinogens

**Oat Beta Glucan (1-3/1-4)** - Added for their cholesterol-lowering and weight management capabilities

**Xylooligosaccharides (XOS) and Arabinogalactan** - Found in a variety of vegetables and added for their ability to modify the immune system and potentially manage lipids

## Immunity Balancing

Taking Kibow Fortis® daily may help the “good” bacteria in the gut, as it helps with intestinal flora maintenance. It provides a food source for the “good bacteria,” allowing them to expand and effectively taking away space from the “bad bacteria.” (8) This action may even help stimulate the immune system and kick it into action. It’s important to remember that a balanced diet and daily exercise will also contribute to a healthy gut microbiome and balanced immunity.

## Shelf Life

The shelf life of Kibow Fortis® is 30 months. No refrigeration is required.

## Dosage & Administration

One scoop full to be taken 1-2 times a day, 30 minutes before each meal or as recommended by your health-care professional.

## All-Natural

Kibow Fortis® is an all-natural prebiotic dietary supplement designed to help you feel your best. Kibow Fortis® tablets are 100% vegan. Kibow Fortis® is non-GMO, gluten-free, and sugar-free. All Kibow® products are made with all-natural ingredients.

## Side-Effects

Prebiotics are generally recognized as safe for consumption. The Kibow Fortis® tablet is more efficacious when taken about 30 minutes before each meal. Side effects, if they occur, are mild (such as gas or flatulence) and usually disappear after two or three weeks of continuous usage.

Our Product is manufactured in a cGMP facility that also process products containing peanuts, tree nuts, seeds, grains, eggs, crustaceans and dairy products. Consult with your health care professional if you have any specific allergy concerns.
