

PRODUCT INFORMATION

The Ultimate Fiber Prebiotic

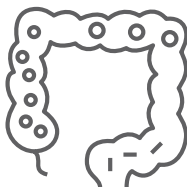

Kibow Fortis® is a highly effective prebiotic dietary supplement made with seven functional fibers. This unique prebiotic blend is made of fibers known to reduce cholesterol, promote satiety (a feeling of fullness), and boost immune function.

Kibow Fortis® consists of both soluble and insoluble fibers, providing unique wellness benefits and promoting an optimal environment for a healthy balance of good bacteria in the intestinal flora matrix.

Monofiber vs Multifiber

Most storebought fiber products are monofibers. However, Kibow Fortis® is a multifiber prebiotic supplement made with functional fibers.

Functional fibers help gut microflora produce short-chain fatty acids (SCFAs) in the bowel. SCFAs have many health benefits including cholesterol reduction and promoting gut wall integrity.

Healthy Gut, Healthy You

Gut health is becoming increasingly recognized as important to overall health and wellness. Your bowel plays host to a wide variety of different microbes that each play a different role in the body. By repopulating beneficial bacteria within the bowel, the effects of a healthy gut balance can be felt throughout the body.

Digestive Health and Regularity*

Satiety*

SUPPLEMENT FACTS

Serving Size: 4 tablets • Servings Per Container: 30

Amount Per 4 Tablets

Ingredients	Amount	% Daily Value
Calories	6	Based on 2,000 calories
Total Carbohydrates	0	*
Sugars	0	*
Soluble Fiber Insoluble Fiber }	4.0 gm	13% Based on 30 gm/day

A proprietary blend of prebiotics consisting of (1,3/1,6) β -glucan, (1,3/1,4) β -glucan, Inulin, Xylooligosaccharide, Arabinogalactan, Dicalcium Phosphate, Cellulose, Croscarmellose Sodium, Stearic Acid, Silica, Magnesium Stearate.

Contains no wheat, sugar, starch, or salt.

* Daily Values (DV) not established

Dosage & Administration

Take 2 tablets twice daily, 30 minutes before meals or as recommended by your doctor/healthcare professional.

Shelf Life

Kibow Fortis® is stable at room temperature for up to 30 months. No refrigeration is required.

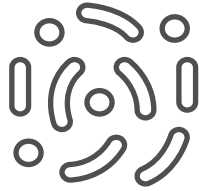

Ingredients Breakdown

Inulin - Fermented in the colon until it becomes butyrate, a short-chain fatty acid that helps reduce the risk of colon cancer

Beta Glucans (1,3/1,6) - Derived from medicinal mushrooms and yeast for their ability to enhance immunity and reduce carcinogens

Oat Beta Glucan (1-3/1-4) - Added for their cholesterol-lowering and weight management capabilities

Xylooligosaccharides (XOS) and Arabinogalactan - Found in a variety of vegetables and added for their ability to modify the immune system and potentially manage lipids

Immunity Balancing

Taking Kibow Fortis® daily may help promote the growth of beneficial microbes in the gut. It does this by providing a food source for these beneficial microbes, allowing them to populate the bowel and take away space from harmful microbes. This may even help stimulate the immune system and help it to rid the body of harmful, toxin-producing microbes.

It's important to remember that a balanced diet and daily exercise will also contribute to a healthy gut microbiome and help promote immune function, keeping your body safe from disease

Improving Overall Wellness

Wellness begins with good health, which means having a healthy gut microbiome. 80-85% of the immune system resides in the gut, so improving gut health has wide-reaching effects for your whole body.

By repopulating the gut with beneficial microbes, you can restore a healthy gut balance and improve overall wellness throughout the body.

All-Natural

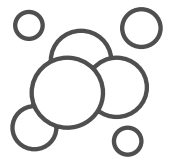

Kibow Fortis® is an all-natural prebiotic dietary supplement designed to help you feel your best. Kibow Fortis® tablets are 100% vegan, non-GMO, gluten free, and sugar-free. All Kibow® products are made with all-natural ingredients.

Safety Profile

Prebiotics are generally recognized as safe for consumption (GRAS). Kibow Fortis® tablets are most effective when taken approximately 30 minutes prior to meals. Side effects, if they occur, are mild (such as gas or bloating) and usually disappear after two or three weeks of continuous usage.

Our product is manufactured in a cGMP certified facility that also processes products containing peanuts, tree nuts, seeds, grains, eggs, crustaceans, and dairy products. Consult with a healthcare professional if you have any specific allergy concerns.
